

“Contents Retriever”

Home Contents Calculator & Inventory Management

Sum Insured’s home contents inventory management App known as “Contents Retriever” is an online App that enables users to calculate and store the correct replacement cost of their valuable home contents.

Contents Retriever works by asking a number of simple questions, such as which rooms and the number of people who live in their home and the overall standard of their home contents.

Then based on statistical averages drawn from Sum Insured’s world class ongoing community research programme, the application builds a comprehensive list of contents, suggested quantities and their replacement prices.

Having completed this initial estimate, users are then able to make changes to more closely reflect their own situation.

This may involve adding, changing or deleting items and quantities. Users are also able to add additional information to any item within the database.

This can include item descriptions, prices, brand names, model or serial numbers and purchase dates. They are also able to add a graphical image and keep comprehensive notes on any item within the database.

Users are able to save their estimate in a totally safe and secure environment. Then at any time in the future they can log onto their password protected App, access details on all their valuable home contents items, make changes and add further information as their circumstances change.

Information can be accessed anywhere, anytime enabling them to quickly and easily handle things like warranty claims, spare parts purchase, book repairs or use the information in a myriad of other situations.

Contents Retriever also includes automatic updating of the user’s contents values as costs change each year.

Most importantly, in the event that users are unfortunate enough to have an insurance claim, Contents Retriever enables them to access a complete inventory of their valuable home contents assets. This will assist them to make an accurate, fully substantiated claim with their insurance company, leading to a faster and more complete settlement.

The screenshot shows the Sum Insured mobile app interface. At the top, there is a status bar with 'vodaAU 3G', '5:26 PM', and '100%' battery. Below the status bar is the Sum Insured logo. A red button with white text reads 'Add/Edit Item (*Indicates required fields)'. Below this is a form with the following fields: 'Category' (set to 'Appliances (small)'), 'Description:', 'Price (\$)*:', 'Brand:', 'Model No:', and 'Serial No:'. Each field has a corresponding input box. At the bottom of the screen is a navigation bar with icons for 'Home', 'About us', 'Contact Us', and 'More'.
